ABOUT US

Established in 2007, Rahil Engineering Works has gained the distinction of being a trusted manufacturer and supplier of industrial fasteners. REW is an ISO 9001 : 2015 Certified Company. Our fasteners are manufactured to meet the varied needs of engineering, oil & gas, chemical, aerospace, automotive, defence, power generation, railway, electrical, mining and allied industries.

At Rahil Engineering Works, quality is never by chance, but by choice. Every step is taken to ensure that fasteners are designed and developed as per the specifications of the clients. REW is a well renowned name in the field of fasteners, recognised by customers for its endeavour to excel, better and better.

INDUSTRIES SERVED

Oil & Gas | Chemical | Power Generation | Aerospace | Automotive | Defence | Railway |
Electrical | Mining & Allied | General Engineering

STANDARDS & SPECIFICATIONS

ASTM / ASME / BS / DIN / JIS / BS EN ISO

Threads: UNC, 8UN, UNF, Metric Coarse & Fine Series

Finish: Self Colour, Hot Dip Galvanized, Electro Galvanized, Di-Chromated, P.T.F.E., Zinc Plated, Black

OUR PRODUCTS

01 STUD BOLTS

Fully threaded headless bolts used on pipeline flanges for joining pipelines. Can be tightened from both ends by holding one end with a nut. Also made as Engineering Studs - both-end threaded bolts with an unthreaded portion in the centre.

Materials: C.S. / M.S. / Alloy Steel / Ferritic & Austenitic Stainless Steel | Size: 1/4" to 4" (6-100 mm), as per standard or up to any length | Finish: Self Colour, Hot Dip Galvanized, Electro Galvanized, Di-Chromated, P.T.F.E.

02 HEX BOLTS

Full threaded or partial / half threaded hexagonal and heavy hexagonal bolts and screws. Heavy hex covers more bearing area, giving higher strength and bearing pressure.

Materials: C.S. / M.S. / Alloy Steel / Ferritic & Austenitic Stainless Steel | Size: 1/4" to 4" (6-100 mm), as per standard or up to any length | Finish: Self Colour, Hot Dip Galvanized, Electro Galvanized, Di-Chromated, P.T.F.E.

03 NUTS

Threaded fasteners used with a mating bolt to fasten multiple parts together. Manufactured to pair with our studs and bolts across all standards.

Materials: Carbon Steel / Mild Steel / Alloy Steel / Stainless Steel | Size: M12 to M100 and 1/2" to 4" | Threads: UNC, 8UN, UNF, Metric Coarse & Fine | Finish: Zinc Plated, Hot Dip Galvanized, Stainless, Black, PTFE, Yellow, Brass, Dracomet

04 ANCHOR BOLTS

Foundation bolts that anchor structural steelwork and equipment securely to concrete foundations. Made to standard or to client drawing.

Materials: M.S. / High Tensile / Stainless Steel | Finish: Hot Dip Galvanized or as specified | Made to standard or client drawing

05 EYE BOLTS

Loop-headed bolts used as lifting and attachment points in machinery, rigging and electrical installations.

Materials: M.S. / Stainless Steel | Made to standard or client drawing

06 CARRIAGE BOLTS

Domed-head bolts with a square neck that locks into place - ideal for timber-to-metal fastening.

Materials: M.S. / High Tensile / Stainless Steel | Round head with square neck

07 COUNTERSUNK BOLTS

Flat-head bolts that sit flush with the surface for a clean, snag-free finish.

Materials: M.S. / Stainless Steel | Flat head, all standard threads

08 PIPE CLAMPS & U BOLTS

U-bolts and clamps for securing pipes, conduits and tubes to structures.

Materials: M.S. / High Tensile / HDG | Made to pipe OD or client drawing
